Profile

Innovative React developer with 1.5+ years of experience in developing web applications using JavaScript and TypeScript. Proficient in building reusable components, managing state, integrating APIs, and deploying scalable, high-performance solutions

Skills

Front End: Javascript, Typescript, Reactjs, Nextjs, Redux, React Native, Tailwindcss, MUI

Backend: Nestjs, Expressjs, Postgress, SQL, Knowledge of AWS Services

Experience

Technobren Infotech Pvt Ltd - *Reactjs Developer*   **December 2023 - PRESENT**
Key Responsibilities

- Migrated a legacy PHP web application to a modern React.js frontend using **React.js**, **Redux**, and **Bootstrap**, enhancing user experience and scalability. Integrated with a backend using **REST APIs**.
- Developed reusable **React** components and implemented **React Router** for seamless client-side navigation.
- Optimized the front end with responsive design, modern JavaScript libraries, and robust testing practices.
- Deployed the application to modern cloud platforms.
- Integrated custom design elements into **Next.js** with **Material-UI**, ensuring a responsive and user-friendly interface.
- Built a dynamic, content-editable review widget for collecting and displaying reviews on static websites using **Next.js**, **Material-UI**, and third-party APIs like **Facebook API** and **Instagram API**.
- Designed a custom landing page for collecting private video and written reviews via a shareable URL.
- Enabled multi-channel review collection via **SMS**, **WhatsApp**, and **email**, using custom templates and sharing links for easy access.
- Developed a scalable e-learning platform with dynamic course management using **Next.js**, **TypeScript**, **TanStack Table**, and **TailwindCSS** for advanced data handling.
- Integrated an AI assistant for personalized learning and query resolution using **AI Integration**.
- Leveraged **TanStack Query** for real-time API integration and efficient data updates.
- Built a responsive, SEO-friendly UI using **Next.js** and **TypeScript**, optimizing accessibility and performance.
- Enhanced user engagement through progress tracking, dashboards, and AI-powered recommendations.

Technobren Infotech Pvt Ltd - *Reactjs Trainee*   **June 2023 - November 2023**
Gained hands-on experience with React.js, building scalable web apps, implementing authentication/RBAC, developing responsive navigation, and collaborating on code quality with senior developers

Certifications & Training

JSpider, Noida-*Java Backend Developer Trainee*   **November 2022 - March 2023**
 Acquired skills: Java programming, backend development, object-oriented programming, database management, Spring Framework, Hibernate, RESTful web services, and version control (Git).

Education

Veer Bahadur Singh Purvanchal University, Jaunpur   **June 2018 - September 2022**
Btech(Information Technology)
